

ARTIFICIAL CHRISTMAS TREE NATURAL SPRUCE SLIM

The Natural Spruce Slim version is designed for tight spaces. The branches are shorter than the classical model, so that it may fit even in the most narrow places. The tree's needle is short, stiff and nice to the touch. It imitates the real tree perfectly.

MATERIAL

In the production of our Christmas trees we used the highest quality self-extinguishing PVC film, which is resistant to UV rays, humidity and temperature changes. Needles keep their color and shape for a long time.

STORAGE

In the production of our Christmas trees we used the highest quality self-extinguishing PVC film, which is resistant to UV rays, humidity and temperature changes. Needles keep their color and shape for a long time.
