

# ARTIFICIAL CHRISTMAS TREE FLOCKED NATURAL SPRUCE

The Natural Spruce excels with its long branches. The dark green needle is covered with cotton down, which perfectly mimics real snow. Needles made of PVC are rigid and short. Perfect artificial Christmas tree for white holiday devotees.

## MATERIAL

In the production of our Christmas trees we used the highest quality self-extinguishing PVC film, which is resistant to UV rays, humidity and temperature changes. Needles keep their color and shape for a long time.

## STORAGE

An artificial Christmas tree from FairyTrees should be stored in a special bag or carton and in a room with an ambient temperature of up to 25°C (77°F), such as is in a basement or a garage.
