

# ARTIFICIAL CHRISTMAS TREE NORDMANN FIR

An extremely complex artificial Christmas tree which perfectly resembles the shape of a real one. The Nordmann Fir is a classic Christmas tree with long and strong branches that will house dozens of different ornaments. Its needles are soft and pleasant to the touch.

## MATERIAL

In the production of our Christmas trees we used the highest quality self-extinguishing PVC film, which is resistant to UV rays, humidity and temperature changes. Needles keep their color and shape for a long time.

## STORAGE

An artificial Christmas tree from FairyTrees should be stored in a special bag or carton and in a room with an ambient temperature of up to 25°C (77°F), such as is in a basement or a garage.
