

ARTIFICIAL CHRISTMAS TREE TYROLEAN PINE

Tyrolean pine is the latest model added to the FairyTrees collection inspired by the Alps. Artificial Christmas tree with a classic shape is the perfect decoration for any interior. The needles are soft and long, styled to imitate real ones. The core of each branch is a durable wire that can handle even the heaviest of decorations. The collection has four variants to choose from: 150 cm, 180 cm, 220 cm, 250 cm.

MATERIAL

In the production of our Christmas trees we used the highest quality self-extinguishing PVC film, which is resistant to UV rays, humidity and temperature changes. Needles keep their color and shape for a long time.

STORAGE

An artificial Christmas tree from FairyTrees should be stored in a special bag or carton and in a room with an ambient temperature of up to 25°C (77°F), such as is in a basement or a garage.
